

How to Pay an Invoice Using Wise

Step-by-step mobile guide

Before you start: Keep the invoice PDF or screenshot ready. Always verify the recipient name, bank details, currency, amount, and invoice number before confirming the payment.

Step 1. Open Wise and tap Send

Open the Wise app. On the Home screen, tap the green Send button at the top.

<https://wise.com/us/>

Step 2. Choose or add the recipient

Select the existing recipient from the list. If the recipient is not saved yet, tap Add and create a new recipient.

Step 3. Select the recipient currency

Choose the currency shown on the invoice, for example USD.

Step 4. Add recipient details from the invoice

Choose Upload screenshot or invoice. Wise can read screenshots, images, or PDF invoices and fill in the details automatically.

The invoice may be sent to you directly, or it may come from **Gur Pharma** or from **our coordinator**.

Step 5. Upload the invoice file

Choose Upload a file and select the invoice from your phone.

Step 6. Wise fills in the payment details

Wait while Wise reads the invoice and fills in the recipient and payment information. You will be able to check everything before payment.

Step 7. Enter or confirm the amount

Check the amount, currency, recipient, and payment method.

You may change the payment method
if Wise shows a cheaper option.

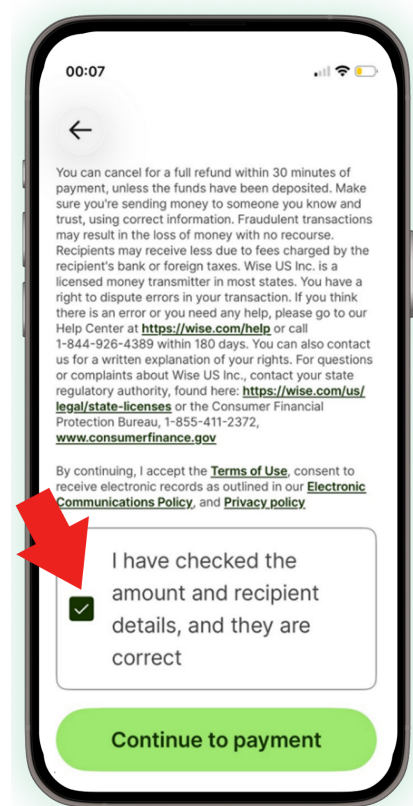

Step 8. Review the final recipient amount

Make sure the recipient, currency, and amount are correct. Wise may show a note about intermediary bank fees for some international transfers.

Step 9. Confirm and continue to payment

Check the confirmation box saying that the amount and recipient details are correct. Then tap Continue to payment.

Final checklist

- ☐ Recipient name matches the invoice.
- ☐ Bank details match the invoice.
- ☐ Currency and amount are correct.
- ☐ Invoice number or payment reference is included if Wise asks for a reference.
- ☐ Payment method and fees have been reviewed.
- ☐ Confirmation screen has been checked before payment.

Important: Do not send money unless you know and trust the recipient and have verified the invoice details.
